WHO SHOULD JOIN THIS?

Students about to enter college or First-year Undergrads in Engineering or similar fields looking forward to Startup but are clueless about where to start.

Non-college students, pass-outs, or senior-year students looking forward to making a switch to Startup based jobs or aspiring start their startups.

FEATURES

It's not any other series of boring lectures

Flexible Online Workshops

The online workshops with start at 9pm every night which will be completely interactive and will end only after all the mentioned topics are completed

Exclusive Network

You will be having networking mixers, opportunities to work on collaborative projects.

Personalised Startup Mentorship

We do not want to keep it like one of those boring lectures, instead from the Day 1 you will be asked about your startup idea and will be motivated to think of one if you do not have. You will be given a team too, if required and then we will work on that startup together throughout the cohort and even after that.

Resource Material

Delicately curated resources, links, websites and videos will be shared with you during and after the workshop as well as assignments.

PRICING

Type	Fees	
Individual	₹199	**Terms:** If you are registering with two of your friends then there will not be any different process. All three of you have to register individually and then a day before the cohort, a rebate form will be floated and you can your friends can fill and the money will be send back to your bank/UPI account.
Team of 3	₹0 for all 3	

"

I have now worked on two startups and interacted with hundreds of them, but I still wish there was a cohort like this when I was a **college fresher.**

Register Now

Next Batch Starting 15th June
